

CREEPLY CRAWLERS!

Some not-so-creepy facts about the creatures in your neighborhood.

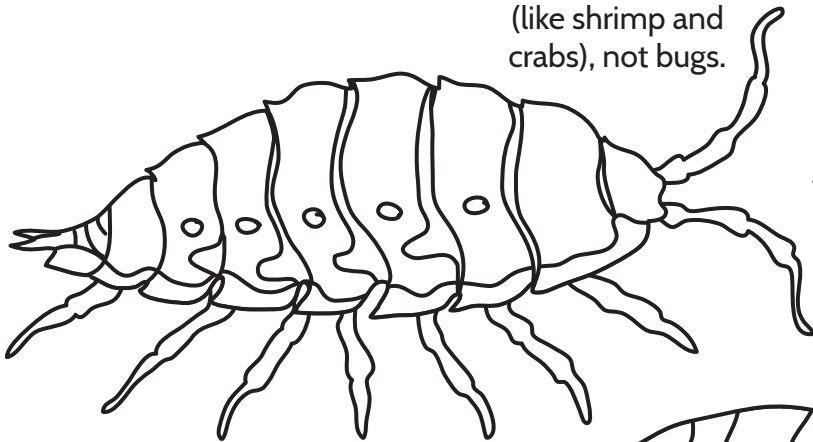

The earthworm can eat up to one third of its body weight in dead leaves and other plants each day.

There are more than 40,000 species of spiders worldwide!

Pillbugs are actually crustaceans (like shrimp and crabs), not bugs.

The snail uses its "foot" and mucus to move in a gliding motion, leaving a "snail trail" behind it.
